DETAILED ACTION

1. This is in response to Applicant's amendment filed 10 March 2009. Claims 1 and 3-29 are pending. Claim 29 was cancelled. Claim 2 was previously cancelled. Claims 1, 3, 4, 7, 8, 15-18, 21, and 22 were amended.

Response to Arguments

2. Applicant's arguments, see remarks filed 10 March 2009, with respect to the 102(b) rejection have been fully considered and are persuasive. The non-final rejection of 10 December 2008 has been withdrawn.

Allowable Subject Matter

3. Claims 1 and 3-22 are allowed.
4. The following is an examiner's statement of reasons for allowance:

The prior art details automated systems for managing deferred compensation plans. These systems are old and well known in the art. However, there is a need for tracking compliance with banking regulations for these deferred compensation plans.

The previous primary reference, Facciani et al., U.S. Pat. No. 5,999,917, discloses a system for managing the assets and liabilities of non-qualified deferred compensation plans. Facciani discloses tracking assets and liabilities of the plan and determines to rebalance the plan if required by the plan sponsor.

However, Facciani does not disclose "determining by the computer whether one or more life insurance policies are included in said portfolio account, and, if one or more life insurance policies are included in said portfolio account, determining a value of equity assets in the one or more life insurance policies." Furthermore, Facciani does

not disclose "combining by the computer the value of the equity assets held in said portfolio account exclusive of equity assets held in life insurance policies and the value of the equity assets in the one or more life insurance policies to determine an asset balance associated with said portfolio account." Facciani does not contemplate calculating equity assets held in a portfolio account exclusive of those held in life insurance policies. Nor does Facciani distinguish between equity assets and non-equity assets held in life insurance policies.

Finally, Facciani does not disclose a "known relation imposed by banking regulation." Facciani only reallocates funds in the plan according to the plan's sponsor goals.

A publication describes allowing various benefits and procedures for deferred compensation plans: Carrick, Gregory, Analyzing the financing of nonqualified deferred compensation plans, *Benefits Quarterly*, 1998, v14, n3, p. 43-58. This publication does not disclose calculating the value of equity assets in insurance policies exclusive of equity assets held in a portfolio account nor divesting a portion of the portfolio account when a dollar value of an asset balance exceeds a known relation imposed by banking regulation with regards to a dollar value of said liability balance until the dollar value of the portfolio account is within limits with regard to the known relation to the dollar of the liability balance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
